2ND TPM IN MALTA

11-12 JANUARY 2024

We are thrilled to announce the successful conclusion of our second Transnational Project Meeting in the beautiful Malta!

 **AR enhanced e-Course & Teacher CPDs:** We've finalised the content for our innovative, augmented reality-enhanced e-course and Continuing Professional Development (CPD) modules for teachers.

 **Edugame Progress:** The NutriVenture EduGame is designed to complement the AR enhanced e-Course reinforcing the learned content and making learning FUN! We've made great strides in its development, and it's poised to be a game-changer in educational technology.

 **We discussed upcoming tasks and milestones!** We are excited to bring these transformative educational tools to you. Stay tuned for more updates!

NutriClima AR Enhanced e-Modules & CPD

The project partners developed 10 future-oriented e-modules enhanced with AR technology that can be delivered both virtually and face-to-face. The e-modules:

- Basics of Biochemical Processes
- Digestion within the Body
- The Dangers of Processed Food & Allergies
- How an Abattoir Functions
- How Food is Processed within a Factory Setting
- Fundamentals of Climate Change & Green Deal
- How Sugar Affects the Body & Weight Management
- Understand the Carbon Cycle and Why Net Zero Carbon Emission is Important
- Reduce Food Waste for Climate Action
- The Future of Sustainable Food Growth & Consumption

The CPDs:

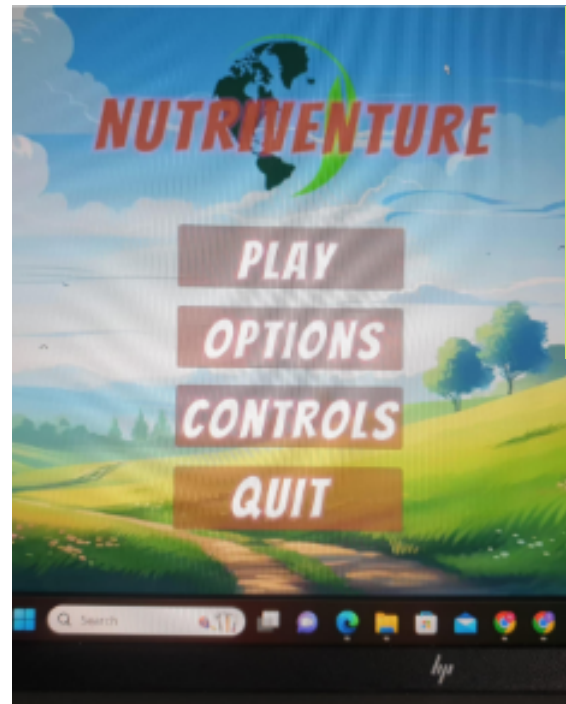

- The Fundamentals of Climate Change & Green Deal
- Education for a Sustainable World
- Education for Climate Action

Visit our e-learning platform <https://nutriclime-learning.eu/login/index.php> to learn more! The e-modules are freely accessible on an e-platform for anyone to use!

NUTRICLIME EDUGAME-NUTRIVENTURE GAME

- the NutriClime EduGame is a fun and interactive tool that uses the latest UX/UI graphics technology to communicate with users. Through data analytics, the game can measure users' behavior to enhance the effectiveness of the project.
- The game will expand potential target groups based on user profiles and promote the importance of plant-based diets and their relation to climate change.
- While the game is enjoyable on its own, its true potential is realized when paired with the e-modules, offering a more comprehensive learning experience

About NutriVenture

- Embark on a thrilling adventure as Nova, a young eco-warrior, on the newly inhabited Planet 2.0.
- In a world devastated by unsustainable practices and the nefarious actions of Ignorance, humanity's only hope lies in recovering the missing pages of the Sustainability Codex.
- These pages hold the key to a sustainable future for Planet 2.0, but they are scattered across diverse landscapes and guarded by Ignorance's minions.
- As Nova, your mission is to navigate through these challenges, recover the pages, and restore the Codex to ensure the perpetual thriving of Planet 2.0.
